NOTE FOR THE FILE

Received a call from Scott Cohen, in the office of Senator Charles Percy, indicating that the Senator wished information on a Hanoi broadcast now being made in response to President Johnson's offer to meet with North Vietnamese representatives. After checking with [redacted] I gave Mr. Cohen the pertinent text from the Hanoi broadcast calling his attention to the fact that this material was still being received and should be read very carefully. Mr. Cohen said he had also received a UPI ticker item on this which was substantially the same as [redacted] which I quoted to him. STATSPEC
